

# PARTS PAYBACK PROGRAM

ARE YOUR PARTS PAYING YOU BACK?

JOIN TODAY AND START GETTING PAID FROM THE PARTS YOU ALREADY BUY!

**LOCKED-IN**  
DISCOUNTED PRICING

**UP TO 4% REBATE**  
ON QUALIFYING PARTS

**5% KICKSTART**  
REBATE BONUS

## Earn More on the Parts You Already Buy.

The Parts Payback Program rewards contractors who choose Standard Supply as their primary parts provider. As an enrolled dealer, you'll earn performance-based rebates on eligible parts purchases throughout the calendar year, plus a 5% KickStart bonus when you sign up and meet the minimum purchase requirement. This is not a short-term promotion — it's an annual performance program designed to support a strong, long-term partnership with Standard Supply and our valued customers.

## HOW IT WORKS

### 1. Enroll

Talk to your sales manager to get started. They will complete the enrollment process and activate your KickStart window.

### 2. KickStart Bonus (First 30 Days)

After enrollment, you have 30 days to purchase a minimum of \$2,500 in qualifying parts. If the minimum is met, you'll receive 5% rebate on those purchases paid out as account credits after the 30-day period.

### 3. Earn Annual Performance Rebates

From enrollment through December 31, qualifying purchases count toward your annual rebate tier.

Annual Qualifying Purchases	Rebate of Total Spend
\$2,500 - \$50,000	2%
\$50,000 - \$100,000	3%
\$100,000+	4%

*\*Annual rebate paid is the percentage of your total annual spend minus the total spent during your KickStart window.*

## Example: Amana AC & Heat

Amana AC & Heat signs up for the program on April 1 and spends **\$10,000** on eligible parts during their 30-Day KickStart window (April 1 – April 30).

They then qualify for the **5% KickStart rebate** (5% of \$10,000 = \$500, paid as account credit at the end of the 30-day KickStart window)

From May 1 – December 31, Amana AC & Heat spends an additional **\$45,000** on qualifying parts.

Their total annual spend equals **\$55,000**, qualifying for the **3%** annual rebate tier.

However, since the **5% KickStart rebate** was already paid on the initial **\$10,000**, the annual rebate applies only to the \$45,000 spent outside of the KickStart window.

**3% of \$45,000 = \$1,350** in account credits.

From the date of registration, Amana AC & Heat earned:  
**\$500 during KickStart window + \$1,350 for the remainder of the year**

*Standard Supply reserves the right to adjust pricing at any time without prior notice in response to supply chain disruptions or cost increases. Though we make every effort to avoid price changes, there are times when market conditions leave us no choice but to do so.*

## PROGRAM DETAILS

- Program runs Jan. 1 – Dec. 31 (2026 start date is Mar. 4)
- Rebates are applied as account credit annually
- Program resets at the end of each year
- Qualifying purchases include parts listed within this catalog

## FAQ:

### Is this replacing the Spring Preseason promotion?

Yes. The Parts Payback Program replaces our traditional Spring Preseason promotion. Rather than offering a short-term seasonal incentive, we've created a year-round program that rewards consistent purchasing throughout the entire calendar year.

### Does the KickStart count toward my annual total?

Yes. KickStart purchases count toward your annual qualifying volume. However, since the 5% KickStart rebate is paid after 30 days, those purchases are not included again in the annual rebate payout.

### Does the program pricing override my existing pricing?

Yes. The pricing offered through this program supersedes any existing pricing or discounts you may already have. Because the rebate structure relies on consistent, standardized pricing, program rates must apply for all enrolled participants.

### What if I enroll mid-year?

You can enroll at any time. Your 30-Day KickStart begins at enrollment, and all qualifying purchases from that date through December 31 count toward your annual total.

### When are rebates paid?

KickStart rebates are paid after the 30-day period. Annual performance rebates are paid in January following year-end.

### Can I check my progress?

Yes. Your Sales Manager can provide updates on your qualifying purchases and projected tier.

### Do all parts qualify?

Only eligible items included in this catalog qualify toward rebates.

### Are sales tax, freight, or returns included in my purchases?

No. Annual qualifying totals are calculated based on net invoice amounts and exclude sales tax, freight charges, returns, credits, and non-qualifying items.

### Is there a contract or long-term commitment?

No long-term contract is required. Enrollment simply activates participation in the annual program.

### What happens after December 31?

The program resets for the new year. Dealers may re-enroll and begin accumulating toward the next annual tier.

## CAPACITORS - IMPORTED

MARS® capacitors are manufactured with the highest quality components. Our capacitors are manufactured and tested under our high standards and specifications. MARS® always strives to supply excellent quality products at an economic price.

- Drawn Steel Case Construction
- Physical Interrupter for Safety
- Type Two
- Non-PCB Biodegradable Synthetic Oil
- Quad Blade Quick Connect Terminals

Item Number	Item Title	Voltage	Style	Capacitance (MFD)	MFG Warranty	Manufacturer	Price

## CAPACITORS - USA

U.S.A. Capacitors by AmRad Engineering (American Radionics) are an industry preferred component when it comes to superior performance. All Capacitors are Individually Boxed and Dual Branded...for either 370 or 440 VAC Applications. Manufactured and Assembled in the U.S.A & backed by a 5 Year Warranty.

- OEM Approved Replacement
- 40°C to 70°C Operating Temp
- Individually Boxed
- Contains Proprietary Dielektril VI Oil
- High-Grade Metalized Polypropylene Film
- 1/4" Tab Male Terminals

Item Number	Item Title	Voltage	Style	Capacitance (MFD)	MFG Warranty	Manufacturer	Price
USA2029	Run Capacitor	370V & 440V	Oval	5	5 years	AmRad	
USA2031	Run Capacitor	370V & 440V	Oval	7.5	5 years	AmRad	
USA2035	Run Capacitor	370V & 440V	Oval	10	5 years	AmRad	
USA2207	Run Capacitor	370V & 440V	Round	10	5 years	AmRad	
USA2208	Run Capacitor	370V & 440V	Round	12.5	5 years	AmRad	
USA2209	Run Capacitor	370V & 440V	Round	15	5 years	AmRad	
USA2211	Run Capacitor	370V & 440V	Round	20	5 years	AmRad	
USA2213	Run Capacitor	370V & 440V	Round	30	5 years	AmRad	
USA2214	Run Capacitor	370V & 440V	Round	35	5 years	AmRad	
USA2215	Run Capacitor	370V & 440V	Round	40	5 years	AmRad

## CAPACITORS - UNIVERSAL

AmRad's Turbo universal capacitors are USA-Made multi-tapped, fluid-filled motor-run capacitors that replace a wide range of individual capacitance values in HVAC motors and compressors by providing a selectable capacitance range within one unit

- Truly Universal Capacitors
- Rust Free All Brass Terminals
- Made In The Usa
- Filled With Thick Non-Pcb Dielectric Fluid
- 5-Year Warranty

Item Number	Item Title	Voltage	Style	Capacitance (MFD)	MFG Warranty	Manufacturer	Price
TURBO200MINIOVAL	Universal Run Capacitor	370V & 440V	Oval	Up to 15 MFD	5 years	AmRad

## CONTACTORS

MARS® contactors are built for reliable, long-lasting performance with strong coils, durable contacts, & consistent pull-in under load. Designed to handle high inrush current & repeated cycling, they reduce failures & callbacks while delivering dependable switching in demanding HVAC applications.

- Compact Open-Frame Design Suitable For Equipment Control Compartments
- Universal Base Type Mounting
- Screw Or Quick-Connect Terminals As Supplied On The Specific Model For Line, Load, And Coil Connections
- Box Lug/Quick Connect Connection

Item Number	Item Title	Voltage	Amperage	Pole	Warranty	Manufacturer	Price

## DISCONNECTS & WHIPS

Contractor-preferred for durability, code compliance, and install efficiency. DiversiTech® disconnects and pre-assembled whips are built to withstand harsh outdoor conditions, reduce labor time, and deliver reliable, long-term performance on every job.

- Fuses Install Into Pull-Out Handle
- Mounting And Inline Wiring
- Indicator Light For Blown Fuse

### DISCONNECTS

## FAN RELAYS

Reliable switching performance for blower motor control. MARS® fan relays are built for consistent operation, quick response, and long service life, making them a trusted choice for residential and light commercial applications.

- Compact, Totally Enclosed Design
- -40 Degree F To 130 Degree F Temperature Range
- UL Recognized
- Quiet, Reliable And Economical
- Easy Install & Universal Mounting
- Break-Away Tabs

Item Number	Item Title	Switch Type	Coil Voltage (VAC)	Frequency (Hz)	MFG Warranty	Manufacturer	Price
FR90290	Fan Relay - SP	Single Pole	24V	50/60	1 Year	Motors & Armatures®

FR90380	Fan Relay - SPC	Single Pole Changeover	24V	50/60	1 Year	Motors & Armatures®	

## FLOAT SWITCHES & SENSORS

Reliable condensate overflow protection designed to automatically shut down HVAC equipment when water levels rise. Built for easy installation and dependable performance to help prevent costly water damage and service calls.

- Industry-Leading Precision Adjustable Sensitivity
- Streamlined Design For Faster Installations
- Versatile Protection For Multiple Applications
- Battery-Powered Design For Flexible Installation
- Fully Compliant With Industry Codes

### FLOAT SWITCHES

Item Number	Item Title	Usage / Mount	Material	MFG Warranty	Manufacturer	Price

## HARD START KITS

Designed to reduce inrush current and improve compressor startup under heavy load conditions. 5-2-1 hard start kits by CPS® help extend compressor life, enhance efficiency, and ensure reliable performance in residential and light commercial HVAC systems.

- Reduces Compressor Startup Stress
- Extends Overall Compressor Lifespan
- Compatible With Single-Phase Systems
- Improves Starting Under Heavy Load
- Quick, Simple Two-Wire Installation

Item Number	Item Title	System Size	Coil Voltage (VAC)	MFG Warranty	Manufacturer	Price
CSR-U-1	5-2-1 Compressor Saver (Hard Start Kit)	1 - 3 Tons	240V	2 Years	CPS®	
CSR-U-2	5-2-1 Compressor Saver (Hard Start Kit)	3.5 - 5 Tons	240V	2 Years	CPS®	
CSR-U-3	5-2-1 Compressor Saver (Hard Start Kit)	4 - 5 Tons	240V	2 Years	CPS®	

## MOTORS (CFM)

High-quality replacement condenser fan motors designed for reliable performance in residential and light commercial HVAC systems. These 48Y frame motors are available in multiple horsepower options to match OEM specifications. Built for durability and smooth operation, they feature reversible rotation, multiple speed taps, and compatibility with standard run capacitors.

- 48y Frame For Standard Condenser Applications
- Extends Overall Compressor Lifespan
- Compatible With Standard Run Capacitors
- Thermally Protected
- Ball Bearing
- Reversible Rotation

## BLOWER MOTORS

These Fan & Blower Motors provide reliable replacement solutions for residential and light commercial HVAC systems. Designed for 1075 RPM direct-drive blower applications, these motors are ideal for furnace and air handler airflow operation. Available in multiple horsepower and voltage configurations, they offer dependable performance, flexible replacement options, and manufacturer-backed warranty coverage.

- 48y Frame For Standard Condenser Applications
- Extends Overall Compressor Lifespan
- Compatible With Standard Run Capacitors
- Thermally Protected
- Ball Bearing
- Reversible Rotation

## CONTROL BOARDS

High-quality replacement control boards designed for residential and light commercial HVAC systems. These integrated furnace and fan controls manage ignition sequences, blower timing, and safety monitoring to ensure proper system performance. Built for durability and universal replacement applications, they offer dependable compatibility across a wide range of gas furnace models.

- Integrated Ignition and Blower Control
- Single-Phase 60hz Compatibility
- Designed For Gas Furnace Applications
- On-Board Diagnostic LED Indicators
- Universal / OEM Replacement Configurations

50A65-843	Nitride Ignition Furnace Control Board	120VAC	25VAC	60Hz	1 Year	White-Rodgers	
50M56X-843	Universal Integrated Furnace Control Board	120VAC	25VAC	60Hz	1 Year	White-Rodgers	

## FLAME SENSORS

High-quality replacement flame sensors for gas furnaces. Designed to detect flame through rectification technology, they ensure safe ignition and reliable system operation. Durable construction makes them ideal for residential and light commercial service applications.

- Designed For Gas Furnace Applications
- Stainless Steel Sensing Rod Construction
- Quick-Connect Terminal Design
- Flame Rectification Sensing Technology
- Corrosion-Resistant Mounting Bracket
- Oem And Universal Replacement Options

Item Number	Item Title	Length	Angle	MFG Warranty	Manufacturer	Price
FLS010	Straight Universal Flame Sensor Replacement	4"	Straight	1 Year	Supco	
FIS014	45 Degree Offset Flame Sensor Replacement	4"	45°	1 Year	Supco	
FLS201	90 Degree Flame Sensor Replacement	2"	90°	1 Year	Supco	
FSC10	Flame Sensor Cleaner				Supco	

## GAS VALVES

Replacement gas valves designed for safe, precise control of fuel flow in residential and light commercial heating systems. Built for reliable ignition and consistent performance, they are ideal for service replacements across a wide range of gas furnace applications.

- Natural Gas And LP Compatible
- Safety Shutoff Design
- OEM And Universal Replacement Options
- 24VAC Control Operation
- Durable Construction

Item Number	Item Title	Size	Fuel Type & Capacity (BTU)	Voltage	MFG Warranty	Manufacturer	Price
36j22-214	Universal Gas Valve, Single Stage, Fast Opening	1/2"	Propane: 226,800   Natural Gas: 140,000	24V	1 Year	White-Rodgers	
36j24-214	Universal Gas Valve, Single Stage, Fast Opening	1/2"	Propane: 226,800   Natural Gas: 100,000	24V	1 Year	White-Rodgers	
36G22-412	Universal Pilot Gas Valve, Electric On/Off Switch	3/4"	Propane: 240,00   Natural Gas: 150,000	24V	1 Year	White-Rodgers	

## IGNITERS

Our Universal Furnace Igniters are designed for reliable, fast, and consistent gas ignition in residential and light commercial heating systems. Available in both Silicon Carbide and Silicon Nitride options, these universal kits include mounting brackets and hardware to replace hundreds of OEM furnace and boiler igniters.

- 18ga Copper High Temp Fiberglass Insulated Lead Wires
- Universal OEM Replacement
- Low Power Consumption
- Durable High-Temp Construction
- Fast Heat-Up Time (<17s)
- High Oxidation Resistance

Item Number	Item Title	Resistance	Steady State Current	MFG Warranty	Manufacturer	Price
IG4000	Flat Silicon Carbide Furnace Ignitor Kit	50 - 1100 Ohms	2.9 to 5.0 Amps Maximum @ 115 Volts	1 Year	Supco	
IG402K	Flat Silicon Carbide Furnace Ignitor Kit - 24" Lead	50 - 1100 Ohms	2.9 to 5.0 Amps Maximum @ 132 Volts	1 Year	Supco	
IG403K	Flat Silicon Carbide Furnace Ignitor Kit	50 - 1100 Ohms	2.9 to 5.0 Amps Maximum @ 132 Volts	1 Year	Supco	
SIG1100	Round Silicon Carbide Furnace Ignitor Kit	50 - 1100 Ohms	3.0 to 3.6 Amps Maximum @ 115 Volts	1 Year	Supco	
SSN1100	Round Silicon Nitride Furnace Ignitor Kit	34 - 64 Ohms	0.8 to 2.0 Amps Maximum @ 120 Volts	1 Year	Supco	

Item Number	Item Title	Material	Voltage	Lead Wire Length	MFG Warranty	Manufacturer	Price
Q3200U100	GLOWFLY® Multisystem Hot Surface Igniter	Silicone Nitride	120VAC	15"	3 Years	Resideo	

**TO ACCESS PRICING, PLEASE REACH OUT TO YOUR SALES MANAGER. THEY WILL SEND A VERSION OF THE CATALOG WITH PUBLISHED PRICING.**

## LIMIT SWITCHES (ADJUSTABLE)

Adjustable limit switches provide field-settable temperature control for fan and high-limit applications in HVAC systems. Featuring a snap-action bimetal design, these controls open on temperature rise to prevent overheating and automatically reset when temperatures return to normal. Ideal for service replacement or applications requiring precise temperature adjustment and dependable protection.

- 40° Adjustable Temperature Range
- Open on Rise Action
- Snap-Action Switching
- 1/4" Quick Connect Terminals
- Dial Adjustment
- Automatic Reset
- Designed for Fan or Limit Operation
- Bimetal Temperature Sensing

Item Number	Item Title	Adjustable Range	Differential	Voltage	Resistive Amps	FLA/LRA (120/240V)	MFG Warranty	Manufacturer	Price
LS135-175A	AT012 Thermostat Limit Switch	135° to 175°	40°	120V/240V	25A	14/10A – 72/60A	1 Year	Supco	
LS175-215A	AT013 Thermostat Limit Switch	175° to 215°	40°	120V/240V	25A	14/10A – 72/60A	1 Year	Supco	
LS210-250A	AT014 Thermostat Limit Switch	210° to 250°	40°	120V/240V	25A	14/10A – 72/60A	1 Year	Supco	

Item Number	Item Title	Disc Diameter	Cut-In Temp	Cut-Out Temp	Differential	MFG Warranty	Manufacturer	Price
3L01-150	Snap Disc Limit Control	0.75"	110°	150°	40°	1 Year	White-Rodgers	
3L01-165	Snap Disc Limit Control	0.75"	125°	165°	40°	1 Year	White-Rodgers	
3L01-170	Snap Disc Limit Control	0.75"	130°	170°	40°	1 Year	White-Rodgers	
3L01-200	Snap Disc Limit Control	0.75"	160°	200°	40°	1 Year	White-Rodgers	

## LIMIT SWITCHES (FIXED)

Temperature-activated safety controls designed to open on temperature rise and auto-reset once temperatures return to safe levels. Used in furnaces, unit heaters, and other heating equipment, these compact snap disc limits provide reliable over-temperature protection to safeguard equipment and ensure safe operation.

- Automatic Reset Operation
- Fast-Acting Snap Disc Design
- Compact & Durable Construction
- Temperature-Specific Protection
- Universal HVAC Applications
- UL Recognized

Item Number	Item Title	Disc Diameter	Cut-In Temp	Cut-Out Temp	Differential	MFG Warranty	Manufacturer	Price
SLS180	SPST 180° Thermostat Snap Limit Switch	0.5"	140°	180°	40°	1 Year	Supco	
SLS200	SPST 200° Thermostat Snap Limit Switch	0.5"	160°	200°	40°	1 Year	Supco	
SLS300	SPST 300° Thermostat Snap Limit Switch	0.5"	250°	300°	50°	1 Year	Supco	

**TO ACCESS PRICING, PLEASE REACH OUT TO YOUR SALES MANAGER. THEY WILL SEND A VERSION OF THE CATALOG WITH PUBLISHED PRICING.**

## PRESSURE SWITCHES (ADJUSTABLE)

Adjustable air pressure sensing switch kit ideal for residential and light commercial furnace, electric air cleaner and humidifier applications.

- Adjustable set points
- SPDT
- Factory Set To Activate On Pressure Rise
- UL® & CSA® approved

Item Number	Item Title	Pressure Range	Temp Range	Amps	MFG Warranty	Manufacturer	Price
RSS495011	Adjustable Air Pressure Switch	0.25" to 1.0"	-40°F to 190°F	5A	2 Years	Supco	
RSS498013	Adjustable Air Pressure Switch	1.0" to 4.0"	-40°F to 190°F	5A	2 Years	Supco	

## PRESSURE SWITCHES (UNIVERSAL)

Universal small footprint air pressure sensing switch that replaces hundreds of small footprint air switches

- Hardware Kit Included
- Set Point Range: 0.10" to 10.0" W.C.
- Senses Positive, Negative Or Differential Pressures
- UL®, CUL®, CSA®, CE®, & Australian Gas Association Approved

Item Number	Item Title	Pressure Range	Max Pressure Rating	Product Life	MFG Warranty	Manufacturer	Price
NS2000031	Universal Air Pressure Switch Kit	0.1" w.c. to 10.0" w.c.	14" w.c.	1000,000 cycles	2 Years	Supco	

TO ACCESS PRICING, PLEASE REACH OUT TO YOUR SALES MANAGER.

## SEQUENCERS

Rectorseal electric heat sequencers stage electric heat to prevent circuit overload. Used in electric furnaces, baseboard heaters, and heat pump heating controls. The unit uses a PTC heater and bimetal disc(s) to control switching. The PTC is self-current limiting for stable performance across varying voltages.

- Solid state PTC heaters
- Replaces most Klixon & TOD brands
- Quick-Connect Terminals
- Shock and Vibration Resistant
- Mounts In Any Position
- Full-Load Rating Auxiliary Contacts

Item Number	Item Title	Timings	Switches	ON Timings	OFF Timings	Coil Voltage	Inrush Current	MFG Warranty	Manufacturer	Price
24ZC-1	Electric Heat Sequencer	1	1	1 - 20s	40 - 110s	24VAC	0.75A	1 Year	Rectorseal®	
24ZC-2	Electric Heat Sequencer	1	1	30 - 90s	1 - 30s	24VAC	0.75A	1 Year	Rectorseal®	
24ZC-3	Electric Heat Sequencer	1	2	1 - 20s	40 - 110s	24VAC	0.75A	1 Year	Rectorseal®	
24ZC-4	Electric Heat Sequencer	1	2	30 - 90s	1 - 30s	24VAC	0.75A	1 Year	Rectorseal®	
24ZC-5	Electric Heat Sequencer	2	3	1 - 110s	1 - 110s	24VAC	0.75A	1 Year	Rectorseal®	
24ZC-6	Electric Heat Sequencer	2	4	1 - 110s	1 - 110s	24VAC	0.75A	1 Year	Rectorseal®	

## MISC

Item Number	Item Title	Price	Item Number	Item Title	Price
ET33	Super 33+ Electrical Tape 3/4" x 66'		SSRT185	1/8" x 5' Red Silicone Tube	
FOAM-12OZ	Foam Sealant, 12oz Can, Yields 275ft. (3/8in. bead)		SSRT3165	3/16" x 5' Red Silicone Tube	

## COIL CLEANERS

Formulated to remove dirt, grease, and buildup from evaporator and condenser coils. Designed to improve heat transfer efficiency, restore system performance, and extend equipment life in residential and light commercial HVAC systems.

- Fast-acting Formulas
- Improves Heat Transfer Efficiency
- Aerosol and Gallon Options Available

Item Number	Item Title	Size	Price
4120-08	Alka Brite Plus Condenser Coil Cleaner	1gal	
4127-75	Blackhawk Aerosol	18oz	
4133-08	Cal Brite Evap / Cond Coil Cleaner	1gal	
4166-08	Evap Fresh Coil Cleaner & Disinfectant	1gal	
4166-75	Evap Fresh Coil Cleaner & Disinfectant	18oz	
4168-08	Evap-Powr-C Evap Coil Cleaner	1gal	

Item Number	Item Title	Size	Price
4171-75	Evap Foam No Rinse Coil Cleaner	18oz	
4191-08	Evap Green Evaporator Coil Cleaner	1gal	
4290-75	Nu Blast Aerosol Condenser Cleaner	18oz	
4291-08	Nu Brite Condenser Coil Cleaner	1 gal	
4291-18	Nu-Brite Aerosol Coil Cleaner	18oz	
4371-88	Tri Power HD Coil Cleaner	1gal	

## DRAIN, PAN & WATER TREATMENTS

Drain and condensate treatments designed to prevent clogs, control odors, and reduce overflow issues in HVAC systems. Formulated to maintain clear drain lines, protect condensate pans, and support long-term system reliability.

- Prevents Drain Line Blockages
- Controls Algae and Odors
- Helps Reduce Overflow Damage

Item Number	Item Title	Size	Price
4165-24	Drain Solve	1qt	
4296-60	Pan Treat Condensate Tablets	200 tabs	

Item Number	Item Title	Size	Price
4296-51	Pan Spray Rubberized Coating	16oz	

## LEAK DETECTORS, SEALANTS & ADHESIVES

Leak detection solutions and sealants designed to restore system integrity. Formulated for reliable performance in HVAC service applications, helping reduce downtime and prevent costly callbacks.

- Detects and Seals Refrigerant Leaks Quickly
- OEM-Approved Sealing Solutions
- Spray and Tube Options Available

Item Number	Item Title	Size	Price
4050-08	EasySeal Ultimate Tube (2-10 Ton)	NA	
4182-24	Cal Blue LT Gas Leak Detector - Spray	1qt	

Item Number	Item Title	Size	Price
4184-24	Fluorescent Gas Leak Detector - Spray	1qt	
4369-75	Spray-N-Bond Duct Liner Adhesive	12oz	

## SYSTEM SERVICE CHEMICALS

Specialty service chemicals designed for system restoration, line set flushing, and installation support. Engineered to remove contaminants, protect components during brazing, and help ensure reliable HVAC system performance.

- Removes Oil And System Contaminants
- Protects Components During Brazing
- Ideal For Installs And Repairs

Item Number	Item Title	Size	Price
4057-55	A/C Re-New	4oz	
4151-18	Complete Care Mini-Split Kit	NA	
4300-08	Rx110 Flush Starter Kit	NA	

Item Number	Item Title	Size	Price
4300-09	RX11 Flush (3-4 Ton)	16oz	
4371-32	Thermo Trap Heat Absorbing Gel	32oz	
4371-36	Thermo Trap Heat Absorbing Paste	11oz	

TO ACCESS PRICING, PLEASE REACH OUT TO YOUR SALES MANAGER.

## CARBON MONOXIDE ALARMS

Plug-in CO alarm with replaceable battery backup. AC 120V with Silence feature. Includes electrochemical CO sensor and two AA alkaline batteries.

- End of Life Warning
- Replaceable 9V Backup Battery
- Includes 2x AA Batteries
- 7 Year Limited Warranty
- Single Button Test/Silence

Item Number	Item Title	Temp Range	Amps	MFG Warranty	Manufacturer	Price
CO605B	Carbon Monoxide Plug-In Alarm with Battery Backup	-40°F to 190°F	5A	7 Year	Resideo	

## THERMOSTATS

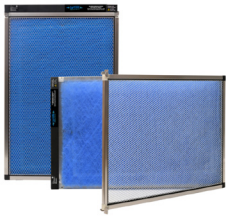

Resideo FocusPRO thermostats provide reliable temperature control for residential and light commercial HVAC systems. Designed for quick installation and easy operation, they support conventional and heat pump systems. Select models offer programmable scheduling and Wi-Fi connectivity for convenient comfort management.

- Filter Change Reminder
- Snap-On Accent Panel
- Quick UWP® Wall Plate Install
- Wired Outdoor Sensor Compatible
- Customizable Display Settings
- 5-Year Warranty
- Easy Programming Navigation
- Flexible Temperature Scheduling

Item Number	Item Title	Dual Fuel	Energy Star Certified	Display Size	MFG Warranty	Manufacturer	Price
TH1110U4000U	FocusPRO N100 Non-Programmable Thermostat – 1H/1C	No	Yes	4.09"	5 Years	Resideo	
TH1320U4002U	FocusPRO N100 Non-Programmable Thermostat – 3H/2C	Yes	Yes	4.09"	5 Years	Resideo	
TH2110U4004U	FocusPRO P200 Programmable Thermostat – 1H/1C	No	No	4.84"	5 Years	Resideo	
TH2320U4006U	FocusPRO P200 Programmable Thermostat – 3H/2C	Yes	No	4.84"	5 Years	Resideo	
TH2110WF4008U	FocusPRO S200 WiFi Thermostat – 1H/1C	No	No	4.84"	5 Years	Resideo	
TH2320WF4010U	FocusPRO S200 WiFi Thermostat – 3H/2C	Yes	No	4.84"	5 Years	Resideo	

**TO ACCESS PRICING, PLEASE REACH OUT TO YOUR SALES MANAGER. THEY WILL SEND A VERSION OF THE CATALOG WITH PUBLISHED PRICING.**

## AIR FILTERS

High-efficiency media air filters designed to capture dust, pollen, and airborne particles within HVAC systems. These filters help improve indoor air quality while maintaining low airflow resistance for efficient system performance.

- Removes Particles Down To .01 Microns.
- Low Airflow Resistance
- Removes Tobacco Smoke From Air.
- 24 Volts And Less Than 3 Watts Means Electrical Consumption Is As Little As \$1 Per Year

Item Number	Item Title	Price
P6100-1625	PureFlo™ Whole House Media Air Cleaner Filter (16" x 25")	
P6100-2020	PureFlo™ Whole House Media Air Cleaner Filter (20" x 20")	
P6100-2025	PureFlo™ Whole House Media Air Cleaner Filter (20" x 25")	

## AIR PURIFICATION SYSTEMS

High-output UV-C air purification systems designed to inhibit microbial growth within HVAC equipment. These systems help reduce mold, bacteria, and other airborne contaminants while improving indoor air quality and system efficiency.

- Kills Mold, Bacteria, And Viruses
- Reduces Coil Contamination
- Lifetime Warranty On Electronics, 3 Years On Lamps
- Improves Indoor Air Quality
- Helps Reduce The Spread Of Colds And Flu.
- High-Output Uv-C Lamp Technology

Item Number	Item Title	Odor Control	Oxidation Chamber	Lamp Count	MFG Warranty	Manufacturer	Price
MUV7-50DR-12	Remote UV-C Dual Germicidal Lamp (12")	Built-In	Yes	2	3 Years	PremierOne	
MUV7-50DR-16	Remote UV-C Dual Germicidal Lamp (16")	Built-In	Yes	2	3 Years	PremierOne	
MUV7-50PS-12	Remote UV-C Single Germicidal Lamp (12")	Optional Upgrade	No	1	3 Years	PremierOne	
MUV7-50PS-16	Remote UV-C Single Germicidal Lamp (16")	Optional Upgrade	No	1	3 Years	PremierOne	

## DECONTAMINATE

D7 Coil Sanitizer is a powerful, EPA-registered decontaminant designed to eliminate bacteria, viruses, mold, and odors on HVAC coils and system components. Ideal for remediation, IAQ service, and preventative maintenance applications.

- Safe for use on HVAC components
- Broad-spectrum antimicrobial performance
- Eliminates odors at the source
- EPA-registered disinfectant formula

Item Number	Item Title	Manufacturer	Price
8001702-STD-KIT	D7 Coil Sanitizer – Quart Kit	Decon 7	
8001706	D7 Coil Sanitizer – 2 Gallon Case (Kit)	Decon 7	
EQUIP-FGI-190504	D7 Coil Sanitizer – Pump Sprayer	Decon 7	
EQUIP-XPf8	D7 Coil Sanitizer – 27 oz Fogger	Decon 7	
EQUIP-FI-FI 1.5L-DP3.75	Foam-It 1.5L Pump-Up Foam Sprayer – White Tank, 3.75" Drain Plug	Decon 7
